

Low Temperature, Low-Foaming and Multi-metal Safe

Heavy Duty Powdered Detergent

FEATURES

- **Biodegradable**
- Low foaming
- Safe on most metals
- Superior rust protection
- No turpines
- Non-flammable
- Forces oils to surface for easy skimming
- Safer for employees and the environment

APPLICATIONS

- Heavy oils
- Greases
- Waxes
- Model release
- Light carbon deposits

TYPICAL PARTS CLEANED

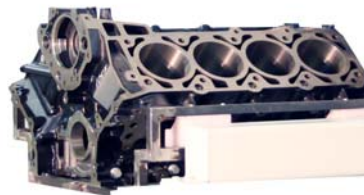

- Engine Parts
- Industrial equipment parts
- Compressors
- Iron castings
- Aluminum castings

EXAMPLES OF PARTS CLEANED

Internal engine parts

Light carbon on aluminum engine parts

Brass castings

Multi-metal parts

RECOMMENDED USAGE

Temperature:	100 °F to 190 °F	
Concentration:	Light oils	1 pound per 10 gallons
	Heavy oils and grease	1.5 pounds per 10 gallons
	Heavy greases & burnt on solids	2 pounds per 10 gallons

Concentration and temperature may be adjusted to achieve maximum cleaning performance. Note: RPN-225 may be added for extended rust protection.
