

Genesis Series turntable style automated parts cleaning systems

GENESIS models provide the MAXIMUM cleaning power in the smallest footprint!

The G-2000 and G-3000 represent 30 years of continuous improvement. They revolutionized the industry in the beginning and continue to lead their class today. The G-2000 and G-3000 are designed to give a customer maximum cleaning power in the smallest possible footprint. Features include the roll-in door, a vertical (seal-less) pump, jam-free turntable drive system, slide-out filter basket, sealed cleaning chamber, etc.

Lifetime guarantees

Welds

Turntable

Door

Against any welds cracking or leaking. *

On the turntable and its sealed bearing assembly.

Against the door ever jamming.

* Warranty void if leaks caused by corrosion.

Standard features

Load Height

Ergonomic 31-inch loading height allows for easy loading of parts.

Mid-Swing Manifold

Mid-swing manifold can be raised or lowered to accommodate various part heights.

Control Panel

Includes 30-minute wash timer, 12-hour heat timer, and low water warning & shut down.

Roll-Away Door

One of the hallmark features of the Genesis parts washers is the roll-away door, which saves floor space. The doors are center supported and don't suffer from the drag problems experienced by doors with outside rollers... hence the Lifetime Guarantee.

Vertical Seal-less Pump

There are no bearings or seals beneath the solution level. The pumps are driven with TEFC motors. The motors have extended shafts that connect directly to the pump impellers (no couplings).

Sealed Cleaning Chamber

Sub-flooring beneath the turntable prevents parts from falling into the holding tank and forces the solution into a removable chip basket.

Turntable Drive

Jam-proof, chain driven turntable drive

Standard features

- Ergonomic 31-inch Loading Height
- Roll-Away Door
- Vertical Seal-less Pump
- Jam-Proof Turntable Drive
- Mid-Swing Cleaning Manifold
- 30-Minute Wash Timer
- 12-Hour Heat Timer
- Sealed Cleaning Chamber
- Slide-out Chip Basket

Optional features

- Automatic 7-Day / 24-Hour Timer
- Casters
- Brush & Pump for Hand Cleaning
- Automatic Water Shut-down & Fill
- Oil Skimmer
- Steam Exhaust
- In-Line Strainer
- In-Line Bag Filter
- Insulation
- ZXX Upper Turntable
- Parts Tree
- 230V / 460V 3-Phase Power

G-2000 and G-3000 shown with Optional features

G-2000-SS

with following options:

- Automatic 7-Day / 24-Hour Timer
- Casters
- Brush & Pump for Hand Cleaning
- Steam Exhaust
- Parts Tree

G-3000

with following options:

- Automatic 7-Day / 24-Hour Timer
- In-Line Strainer
- In-Line Bag Filter
- ZXX Upper Turntable

Aqueous detergents

Better Engineering Aqueous Detergents

These detergents are specially formulated to maximize cleaning performance and to protect your machine. These detergents, backed by “BE’s” chemistry department and factory test center, allow Better Engineering to offer customers a full service cleaning solution.

benefits of “BE” chemistry

- Biodegradable – No VOC’S, non-flammable, and generally non-hazardous
- Lower pH’s – Generally safe on all metals
- Forces oils to the surface for easy skimming
- Low foaming – Designed for powerful spray washers and agitation
- Excellent rust inhibition
- Free-rinsing

lab test services

Engineering Test Lab & Machine Demonstration Center

Better Engineering has a complete engineering lab and machine demonstration center to test clean your parts. We feel that seeing is believing and that is why we invite you to visit our plant and test center in Baltimore, MD. See your parts get cleaned first-hand. Can’t make it to Baltimore? Send your parts and we’ll test clean them for you and return the cleaned parts with a detailed report of our process, the results, and the recommended machinery. Contact Us for additional information or to schedule your **FREE** parts cleaning test.
